ONE SITE. ONE CONTRACTOR. ONE SOLUTION.

COMPANY PROFILE

Garraway Group is an earthmoving, civil construction and mining service provider working in the agricultural, resources and construction industries Australia wide.

It takes experience to target and achieve optimum outcomes from specialised plant and equipment

We offer the most competitive unit rates in the industry whilst maintaining the highest standards in safety and availability.

Based in Mildura, Victoria we specialise in

- Bulk earthworks
- Mine site rehabilitation
- Solar Farm civils
- Road construction
- Tailings and water storage design and construction
- HDPE lining supply and installation
- Land development
- GPS and laser guidance
- Plant/Equipment hire

We own and maintain an extensive fleet of earthmoving plant with our main focus being on the effective and efficient utilisation of these assets. Further, we have an experienced workforce who have a vast knowledge in all facets of earthmoving and civil construction.

Central to our successful Management Strategies are

- Offering services in the design stage to ensure a seamless transition from design to construction
- Pursuing a high level of transparency in dealings with our clients
- Administration of a comprehensive integrated management system which encompasses our quality, environmental and health and safety system

Throughout our years of operation, Garraway Group has successfully worked on a range of projects from small scale to very large bulk earthworks. We have the ability to meet your requirements to any scale providing a personalised approach to our business and client relations.

To ensure all equipment is maintained at the highest standard, our head office in Mildura, Victoria includes a fully equipped workshop to service our fleet. We also have maintenance facilities at our larger worksites.

OUR SERVICES

Our ability to deliver high quality projects that not only meet our clients expectations, but often exceed them has earned us a reputation envied by most

8.5 production hours,
average 15 cycles per hour,
400m lead, 12 bcm/unit/cycle,
4 production units, 720 bank
cubic metres per hour, 6120
bank cubic meters per shift,
7 production personnel.

Bulk Earthworks

We own and maintain an extensive fleet of earthmoving and support plant with our main focus being on the effective and efficient utilisation of these assets. Further, our strong relationships with Australia wide plant and equipment hire companies ensures that we are readily able to procure any additional or specialised plant or equipment required to undertake any project that we seek to acquire.

Road Construction

With a combination of VicRoads accreditation, experience and equipment, we are able to provide services associated with road construction.

Tailings And Water Storage Design And Construction

Garraway Group have vast knowledge and experience in the design and construction of tailings and water

storage facilities. We liaise closely with our clients to determine the best methods for construction from excavation to lining, including HDPE.

Rehabilitation

Rehabilitation of mining sites across Australia presents a mounting challenge to mining companies, governments, traditional owners and other stakeholders.

At Garraway Group we have been rehabilitating mine sites across Australia for many years. During this time we have become acutely aware of the challenges faced post mining. We have simple and efficient solutions to enable post mining sites to be rehabilitated in a professional and cost efficient manner and we have the right plant and equipment mix to enable the most efficient rehabilitation solutions. Predominantly Caterpillar 657G, 631/637G motor scrapers are utilised to ensure adequate

compaction results are achieved to eliminate slump on highwall boundaries and to meet design tolerances to within 50mm.

HDPE Lining Supply And Installation

Garraway Group provide HDPE lining supply and installation services for all types of projects from fresh water dams to raw water treatment reservoirs and tailing facilities. Our success in this field is a combination of strong and established working relations with suppliers and an excellent team of specialised technicians. Further, we also diligently complete the required quality assurance associated with lining, ensuring that our work meets the necessary standards.

GPS And Laser Guidance

Garraway Group have plant with equipped GPS and laser guidance systems to ensure that projects are constructed as per design and furthermore, as

built surveys are carried out upon completion of all projects where requested.

Solar Farms

We have the equipment and skills to undertake solar farm construction including earthworks, surveying, and mechanical support.

Hire

Garraway Group owns an extensive fleet of mostly Caterpillar machinery and auxiliary hire equipment that we can dry hire, wet hire or provide full contract services. We will provide you with reliable, well maintained equipment that delivers the performance you expect.

OUR EQUIPMENT

DOZERS

- Caterpillar D11T x 1
- Caterpillar D10T x 3
- Caterpillar D7E x 2
- Caterpillar D6T XL x 2
- Caterpillar D6R LGP x 1
- Caterpillar D6T LGP x 2

SCRAPERS

- Caterpillar 657G x 2
- Caterpillar 637G x 8
- Caterpillar 631E/G SII x 7
- Caterpillar 627G x 4
- Caterpillar 623K x 1
- Caterpillar 623G x 3
- Caterpillar 623F SII x 2
- Caterpillar 627H x 2

EXCAVATORS

- Hitachi EX1200-6 x 1
- Caterpillar 329DL x 1
- Caterpillar 385CLME x 1
- Caterpillar 324DL x 1
- Hitachi ZX870 x 1
- Caterpillar 349 x 1
- Caterpillar 745 x 3

DUMP TRUCKS

- Caterpillar 773D/E x 6
- Caterpillar AT740 x 5
- Caterpillar 16M x 1
- Caterpillar 16H x 4
- Caterpillar 14M x 2
- Caterpillar 14H RMR x 1
- Caterpillar 140H RMR x 1 WATER CARTS
- Caterpillar 773E (50,000L) x 1
- Caterpillar 773E (45,000L) x 1
- Caterpillar 631E II (40,000L) x 1
- Caterpillar 725 x 1
- Caterpillar 735 (32,000L) x 1
- Volvo A40F/E (32,000L) x 2
- Isuzu FVZ (12,000L) x 2 LOADERS/ IT
- Caterpillar 239D (Multi Terrain) x 1
- Caterpillar 247B (Multi Terrain) x 1
- Caterpillar IT62G (Bucket,Forks & Jib) x 1
- Caterpillar IT62H (Bucket,Forks & Jib) x 1

- Caterpillar 990 x 2 (wheel loader)
- Caterpillar 962K (Bucket, Forks & Jib) x 1
- Caterpillar 988H x 1
- Caterpillar 938H (Bucket, Forks & Jib) x 1
- Caterpillar 930G (Bucket, Forks & Jib) x 1
- JCB Loader/Backhoe 3CX 4x4 x 1
- CAT TH407 Telehandler with Grab x 1
- Caterpillar 990 x 2
- Caterpillar 988K x 1
- Caterpillar 980M x 1
- Caterpillar AT745 x 3
- Caterpillar AT725 x 2

FUEL, LUBRICANT & SERVICE TRUCKS

- Isuzu FTS 800 Service Vehicle x 1
- Isuzu FVZ1400 Service Vehicle x 1
- Kenworth C500 Service vehicle x 1
- Kenworth T408 Service vehicle x 1
- Isuzu RVD750 Tilt Tray x 1
- Isuzu 16,000L Fuel tanker x 1
- 3,000ltr Diesel Tank x 1
- Mine Spec 4x4 Motor Vehicles x 20
- Mine Spec 4x4 & 2/4 Mini Bus x 4
- PETRO Bunded Fuel Storage 65kl x 1
- PETRO Waste Oil tank 20,000L x 1

MISCELLANEOUS

- HDPE Liner Welding & Testing Equipment x 1
- HDPE Pipe Welding Machine x 1
- SYKES HH220 Self priming pump x 1
- SYKES Dewatering pump 150mm x 2
- SYKES General Purpose pump 100mm x2
- Aussie Water pump 100mm x 2
- Transportable Building 12m x 3m x 2
- Transportable Building 8m x 2.4m x 1
- Transportable Building 6m x 3m x 1
- Transportable Building 9m x 3m x 1
- Linde forklift H25T x 1
- Haulotte Scissor Lift 10DX x 1
- Diesel Generator 110kva x 2
- Diesel Generator 11-22kva x 3
- Forklift MANITOU MH25-4T x 1
- Traymark caravan x 3
- Mobile WC Block x 1
- Wacker Trench Roller x 2
- 3D-GPS equipment
(including machine and base stations) x 20

OUR PROJECTS

Iluka Resources - Woornack, Rownack And Pirro (Wrp) Mineral Sand Mine

- Non Saline Water Storage Dam – Bulk earthworks and HDPE lining
- Calder Highway Intersection – Bulk earthworks, road works, drainage and road sealing
- Ovenden Road Upgrade – Bulk earthworks, road works and bitumen sealing
- WRP Topsoil and Subsoil Removal – Bulk earthworks
- WRP Site Civil Construction – Earthworks, civil works, road works, drainage and HDPE lining
- ModCod Starter Pit – Bulk earthworks
- TSF Construction – Bulk earthworks and HDPE lining
- Ouyen Camp Expansion – Bulk earthworks, road works, civil works, drainage and bitumen surfacing
- Crooks Road Upgrade – Bulk earthworks and road works
- WRP Bituminous Surfacing – Earthworks and bituminous surfacing
- WRP Relocation of Civil Works – Civil works

Sibelco - Kunwarara Mine

- Bulk Cut Material Overburden Removal - Bulk earthworks
- Mine Rehabilitation – Bulk earthworks

Echo Mineral Sand Mine

- Mine Rehabilitation – Bulk earthworks

Mildura Wastewater Treatment Facility

- Construction of Retention Dams, Settling Ponds, Lagoons and Earthen Platforms - Bulk earthworks
- Treatment facility – Stormwater and road works

Perilya Mine

- Subsoil Stripping - Bulk earthworks
- Tailings Dam - Bulk earthworks

Olam – Almonds

- Civil construction of bunkers and pads.

Iluka - Kulwin Mineral Sand Mine

- Ouyen Accommodation Facility – Bulk earthworks and civil works
- Kulwin Non Saline Water Storage – Earthworks upgrade and HDPE lining
- Stages 1 & 2 Civil Construction – Bulk earthworks, road works, drainage and civil works
- Pohlner Road Diversion – Earthworks and road works
- Tailings Storage Facilities – Bulk earthworks and HDPE lining
- Kulwin Relocation Civil Works – Earthworks and civil works
- Non Saline Water Storage – Bulk earthworks, drainage and HDPE lining
- Kulwin Overburden Strip – Bulk earthworks
- Overburden and Ore Mining – Bulk earthworks and mining
- Mine Rehabilitation– Bulk earthworks

Snapper Mineral Sand Mine

- Off Path Tails Dam - Bulk earthworks

Wemen Mineral Sand Mine

- Mine Rehabilitation - Bulk earthworks

Earthen Water Storages

- Water Reservoirs and Rehabilitation of Irrigation Channel – Bulk earthworks
- Earthen Storage Facilities – HDPE lining
- 400 Mega Liter - Recycled Water Storage Facility for Lower Murray Water, Mildura

Glencore- Clermont Coal Mine

- Mine Rehabilitation –Plant Dry Hire

Weilong Wines Australia

- Civil earthworks for winery, including waste water treatment plant.

Iluka Resources – WIM100 Deposit

- Construction of bulk sample test pit – WIM100 deposit.

OUR MANAGEMENT SYSTEMS

Last LTI - 2011
 LTI free: 631,218 man hours
 A holistic team approach

Garraway Group utilise an Integrated Management System (IMS) to provide the guiding principles and objectives within our operations.

The IMS is a collection of operating procedures that define the processes that we employ to ensure our administrative and project work is carried out efficiently and within legislative and regulatory requirements

The key functions of the IMS include

- Quality**
- Environment**
- Health and Safety**

Quality

Garraway Group recognise the importance of client satisfaction and are dedicated to providing quality service to our clients. Our Integrated Management System ensures that we maintain a high level of performance by continually improving our service and demonstrating business excellence within our operations.

Environment, Health & Safety

Garraway Group is dedicated to operating within an environmentally sustainable, healthy and safe environment. Our commitment to Environment, Health and Safety is achieved through the implementation of best practice which is a reflection of our core company values. Further, our Integrated Management System ensures that we maintain a high level of performance across all facets of Environment, Health and Safety.

OUR INSURANCES, CERTIFICATIONS & ACCREDITATIONS

Insurances

- Workcover
- Public liability insurance

Civil Contractors Federation (CCF)

Garraway Group has developed an Integrated Management System (IMS) which provides the fundamental guidelines for the Company's quality, environment and health and safety functions. The system undergoes an annual audit by DLCS Pty Ltd.

VicRoads

Garraway Group has ascertained VicRoads R1 and F1 accreditation enabling the Company to undertake major works within the National Roads Network.

GARRAWAY GROUP

WE'RE HERE TO HELP

If you would like to discover how we can assist you to successfully achieve your project goals, please don't hesitate to contact us.
